

Board Position Specification

Today's environment requires well rounded boards - the best member brings the critical skills and experiences needed in your boardroom.

Novel way to create a new candidate spec.

- Best in class approach to recruiting
- Online wizard using best practices to easily create a position specification
- Leveraged throughout the recruiting process
- Helps you set candidate requirements and will serve as a position description

Why Boardspan:

- Streamlines search process
- Creates alignment among directors to articulate specific needs of the board
- Allows board members to position the board opportunity, consistently and professionally
- Gives directors a common framework to use when interviewing and discussing candidates

Your Custom Output:

- Sets forth organization's information
- Offers information about the specific opportunity
- Shows candidate qualifications sought – industry and functional experience and competencies
- Establishes board contact information and process
